### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Communication with the attorney***

Applicant's attorney and the examiner have had telephone and e-mail communications in regards to how to amend the claims to avoid a restriction requirement. Applicant's proposed amendments do not link the structure and method enough to distinguish the method from being ordered from an e-commerce environment much different from applicant's intended food court. The examiner suggests possibly adding a method step with the customer inputting an order at the food court or at a station in the food court. Applicant's efforts to automatically receives order at a food court does not really matter because in an e-commerce environment, it is not important where on the world wide network the information is processed. For the purposes of customer service and because applicant has made bona fide efforts to resolve this issue, the restriction has been repealed to give the applicant another try.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-39, drawn to the method of operating a food court.
- II. Claims 40-42, drawn to an apparatus for automated food court operations.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be

practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method could be accomplished in an e-commerce environment as opposed to apparatus requiring parts of the apparatus being in each restaurant.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to J. David Nelson on 7/5/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
